The LGSONS Parent Library

The LGSONS Parent Library consists primarily of books and DVDs relating to parenting, child development, nature and the outdoors, cooking projects, and activities to do with your children. Many have been recommended by our teachers or our guest speakers. Our Amazon wishlist is listed at the end of this document. Please don’t hesitate to contact me if you have any questions or comments. Happy Reading!

Problem-solving tools are the key to enhance the problem-solving proficiency in students. Using teaching strategies to get students to use the right solving formats is just as important as getting them to get the correct answer. Teach students that there is more than one way to get an answer, and this will help them to expand their thinking. To teach students the finding a pattern strategy, you can start by putting students into cooperative learning groups. Give each group a word problem to solve, and show them they can use this strategy by completing this steps. The first step is for students to identify the key pieces of information in the problem. Our guide to help you get ideas on how to fund the essential equipment your Teacher Wellness: Practice Mindful Moments. Problem solving begins with problem identification. Conventional knowledge suggests that because patrol officers work specific geographical areas (beats) on a fairly constant basis, they come to see where the problems exist; thus, police experience alone can be relied on to identify crime problems. However, few have examined whether officers are effective in identifying problems in their areas.
