AIDs was labelled the “gay plague”, suggesting that it was spread among men who had sex with men (MSM). For a period of six months in 1982, the condition was mistakenly labelled “Gay Related Immune Deficiency”. In total, 35 million people have died of AIDS worldwide since the 1980s, including millions in Africa. One chap we knew very into taking poppers. He died of a lung infection and doctors said it was caused by his overuse of poppers. That was in the early 1980s. In hindsight, the lung infection was likely triggered by AIDS, says Michael. Both male and female same-sex sexual activity is illegal under Sudanese law. Men can be executed on their third offence, women on their fourth. Getty. 5/9 Saudi Arabia. Sue Woodman’s feature on how the AIDS crisis impacted women was published in the Jan/Feb, 1987 issue of New York Woman and appears here with the author’s permission. Last year, 1,806 women in America had AIDS, 794 of them were from New York City. Most of us may not yet be aware of this grim new reality, but it is becoming increasingly pervasive. Today, AIDS sufferers are no longer exclusively the gay men and male intravenous drug users who first bore signs of the disease. They’re wives, sisters, mothers—even children, AIDS has become the biggest killer of women in their twenties, and doctors p
