This novel features 13 short stories that imagine what the future could look like. Much like the Netflix series "Black Mirror," the narratives are a bit unnerving, and include social media implants, memory manufacturers, immersive virtual reality games, and human-like robots.

"The Handmaid's Tale" by Margaret Atwood. "The Handmaid's Tale" is set in a dystopian future where an oppressive and religious organization takes over the US government. Klein challenges readers to abandon capitalism and restructure the global economy and our political system to move toward a greener future. She makes the case that moving away from capitalism will not only reduce CO2 emissions, it will also help close inequality gaps and build a better democracy. "The Age of Improv" is a political novel of the future that is satirical, sly and humourous.

And what does the current crisis imply for the future of the Islamic world itself? Will Muslims recoil from the violence and sweeping anti-Westernism unleashed in their name, or will they allow Osama bin Laden and his cohort to shape the character of future relations between Muslims and the West? The answers to these questions lie partly in the hands of the Bush administration. The war on terrorism has already dealt a major blow to the personnel, infrastructure, and operations of bin Laden's al Qaeda network. Just as important, it has burst the bubble of euphoria and sense of invincibility.
