These unique books are designed with performance in mind. The setlists we have included reflect a wide selection of the most accessible, “field-tested” material available, arranged for a four-piece band in a sequence that’s meant to keep your audience entertained. Use Gig Guides in rehearsal and performance, following along with the lead sheets and individual parts. Each song includes:

- A two-page lead sheet with chords, melody, and lyrics
- An intro page with song facts, song form, and performance tips for the full band
- A page of guidelines for each bandmember, including crucial parts and performance tips for vocals, guitar, keyboards, bass, and drums
- A full performance demonstration on the accompanying CD.

Song intro pages contain information that might be useful to the frontperson as between-song banter: the story behind the song, when and by whom it was recorded, and so on. Parts and performance tips are written by professional musicians with field experience (not just some guy in a cubicle). If all bandmembers follow their parts in the book and the accompanying CD, and the band rehearses well, your group will be gig-ready in no time! (All books include guitar and bass tab.)
