**Kiss** Makes Strong Comeback

_In This Frame From Reunion on DVD_

**By ANN GOLDNER**

A certain scene, a certain moment - it has a certain look to it, a certain feel. Through the hum of the conversation, you can almost still hear the voices. And you can tell how much it's all come back.

In DVD form since some seven years ago, the 1990-9000 reunion of the cast and crew of _Kiss_ has come back with a vengeance.

The reunion gets under way with some simple adjustments, including the addition of one new name - mine. I had asked to be invited and was most kindly invited.

We opened in five different theatres across the country, and it was an absolute pleasure to be able to watch the film in those theatres, and to be able to see the film with the cast and crew. It was a wonderful experience, and one that I will never forget.

The reunion was a success, and it was a pleasure to be part of it. It was a wonderful experience, and one that I will never forget.
Arts and entertainment: Art is that three-letter word which encompasses literally everything around us. The world we live in and everything in it that spells beauty, creativity and innovation, is a piece of art. The world itself is God's creation, a piece of His art. We human beings, and everything 'living' are God's masterpieces, His works of art. And then there are miracles man created his works of art. Forms of art are many...music, dance, drama, painting, pottery and the list just goes on. Arts give us huge entertainment.
