Defence from the Skies. Indian Air Force through 75 years. By Air Commodore Jasjit Singh. Publisher: Knowledge World. Price: Rs2,300.00. It reads like a part study, part interpretative essay and reflects on significant issues/events of the past 75 years. It goes a step forward by outlining challenges that IAF faces in the coming decades. The author, Air Commodore Jasjit Singh is one of India’s leading strategic experts in national defence. He brings his vast experience and knowledge of air operations in peace and war to suggest guidelines in a volume that can serve as a future defence of India. As the Indian Air Force (IAF) celebrates its 80th anniversary this year, Laxman Kumar Behera takes its measure. He examines its C4ISR capabilities and provides an overview of New Delhi’s attempts to modernize the IAF’s fighter aircraft and other platforms. As the Indian Air Force (IAF) celebrates its 80th anniversary, the power and exuberance it exhibits has never seen before. Apart from the major platforms, the IAF modernization also includes induction of other systems, including simulators, air defence system and precision-guided weapons. Presently out of 46 simulators, 30 are operational, with others in the process of being replaced. Indian Air Force now completes 80 years since it was formed as an independent component of India’s armed forces. Time and again, the air force has performed magnificently even against severe odds, and built up a professional reputation that is the envy of leading air forces of the world. This volume, as the Second Edition of the earlier volume published in 2007 has been extended. Indian Air Force now completes 80 years since it was formed as an independent component of India’s armed forces.
