Language arts (also known as English language arts or ELA) is the study and improvement of the arts of language. Traditionally, the primary divisions in language arts are literature and language, where language in this case refers to both linguistics, and specific languages. Language arts instruction typically consists of a combination of reading, writing (composition), speaking, and listening. In schools, language arts is taught alongside science, mathematics, and social studies. The English language is continually developing as new generations use words differently from previous generations. New vocabulary arrives regularly and words change their meaning over time. This development in language can be seen with English, for example, where “ham” in Old English became “home” in Modern English. English Language Dates Boundaries. The English language can be split roughly into the following date boundaries: Old English: c. 450 -1100 (For example, the epic poem Beowulf). Finally, we arrive at Late Modern English, exploring how the industrial revolution, scientific advancements and the expansion of the British Empire affected the English language. Explore our fascinating History of English section using the links below: Old English.

The children remain interested because of the different platforms, and the increased repetition builds a stronger language foundation.
