Lest Darkness Fall by L. Sprague de Camp is Sci-Fi & Fantasy Against the Fall of Night
The Roman Empire had spread order, knowledge, and civilisation throughout the ancient world. When Rome fell, the light of reason flickered out across the Empire. The Dark Ages had begun; they would last a thousand years. Could a man from the 20th century prevent the fall of Rome? When lightening struck and he was hurled backward into the sixth century, the question became anything but academic to Martin Padway, but even forearmed with a knowledge of 20th century technology and of events to come, what could one man do? But Padway must try, lest darkness fall.

Viking Tomorrow

By: Jeremy Robinson & Kane Gilmour
International bestselling authors Jeremy Robinson and Kane Gilmour imagine a world that has survived multiple apocalyptic events, mixing the savagery of the History Channel’s Vikings with the frenetic chase scenes of Mad Max, resulting in a high-octane battle raging across Europe with the fate of humanity at stake. The world is barely holding on. A century after a series of apocalyptic events, humanity is struggling to survive. In the frigid north of Europe, living as their ancient Viking ancestors once did, the last tattered remnants of humankind have become barren. No new live births have occurred in over a decade. When the remaining population dies, the human race will end. But one man of the old sciences has found a way. When a call goes out to the greatest fighters in the North, men capable of surviving a long journey and crushing any obstacle in their path, a young female berserker named Val takes up the challenge. With her eyes hidden behind red-lens goggles, she violently proves her worth, seizes control of a small band of fellow berserkers, and determines to claim her prize: the first glimmer of hope for a tomorrow. Scavenging technology from the old world and the time before the annihilation, the group sets out south, marking the beginning of the Third Age of the Vikings. Almost immediately they are set upon by challenges the likes of which none of them have seen before. Mutated creatures and dangerous landscapes abound, while Val must prove her worth as a leader and keep her unruly men in line. Traveling deep into the ruined wastes of Europe, the Vikings find themselves pursued by enemies determined to stop them at all costs. Attacked from without and betrayed from within, Val fights for the future, and if she fails, humanity fails along with her.

Lest Darkness Fall is an alternate history science fiction novel written in 1939 by author L. Sprague de Camp. The book is often considered one of the best examples of the alternate history genre; it is certainly one of the most influential.
