What Theories of Regional Integration Best Explain the European Experience to Date, and Why has Regional Integration Proceeded at a Slower Pace in Asia, the Pacific Basin, Africa, Latin America and North America? The different theories of regional integration have widely different views on regional integration in Europe and offer widely different explanations for it. Because of the constraints of time and space, this essay will deal with three of the main theories of regional integration: intergovernmental institutionalism, neo-functionalism and multi-level governance. Political thinkers proposing integration in Europe after the end of World War II were also well aware of the effects of political integration on rent seeking. Altiero Spinelli, whose writing inspired the creation of the European Union, wrote in 1957 that “the power of national states to decide economic policy only benefits national special interests” and argued that, for precisely this reason, these groups were opposing the European integration process. The historical account of Ginsborg (1990) finds in fact that in Italy a lobby of steel producers pressured the government to stay out of the European...
