The author's study includes treatments of the history of language and systems of writing, the state and society, nutrition and agriculture, artisanry, economics, law, science, religion and magic, art, music, and more. Key Features. Author(s). In summary I think this is a very good book for students who are starting out on their studies of the ancient Near East, and a good review book for those whose knowledge of the subject has primarily been gained by self study. Read more. 34 people found this helpful. Von Soden's work is an excellent introduction to the Ancient Near East, comprehensive in its coverage of a wide range of topics, time periods, and geographic settings. A feminist historiography you will not find, as women's daily lives and roles in society are not a focal point. King lists and men's roles in society are much more prominent, as are traditional views on history (i.e. that history does not "begin" until the advent of writing).
