Finance – Maintenance and creation of economic value or wealth. Efficient Market – Market where all pertinent information is available to all participants at the same time, and where prices respond immediately to available information. Stock markets are considered the best examples of efficient markets. Primary Market – Is a market in which new, as opposed to previously issued, securities are traded. Secondary Market – Financial market where previously issued securities (such as bonds, notes, shares) and financial instruments (such as bills of exchange and certificates of deposit) are bought and s
