As 2018 fast approaches, we can't help but look back on the past 12 months, a year that was a whirlwind politically, socially, culturally, and... While the acquisition has been off to a rocky start, it gives Amazon hundreds of physical stores and provides the company a strong entryway into the competitive grocery and food industry. 2. Intel Acquires Mobileye. Intel INTC said in August that it had completed its tender offer for the outstanding shares of Mobileye, a company that develops sensors and cameras for Advanced Driver Assisted Systems (ADAS); the Israel-based company is also known for its computer vision and machine learning technology.
