Can the problems of infertility among women in the society be reduced with the knowledge of sex education. Scope of study. Sex education is a very broad topic, it is necessary for everybody not just students or adolescent, but this study is limited to the need for sex education in secondary school curriculum. Definition of term. Sex: A fundamental driving force in relationship between the biological need to produce, culture influence love and affection of human life. The world today is undergoing major transformations. The global transformations are multidimensional, affecting the technological, economic, social, cultural and political development of human communities particularly those of developing societies like Nigeria. Education in the generic and global context is a strategic instrument for social and economic transformation. The teaching of English as a second (ESL) or as a foreign language (EFL) started to become important after World War II. A great demand for English courses by immigrants, refugees, and foreign students took place in the United Kingdom, Canada, the United States, and Australia (Richards, 2001:23). Since the language curriculum of Libyan secondary schools has been changed lately and has been based on the communicative approach. The EFL teachers who teach this new curriculum should be based on the principles and objectives of the communicative approach.
