An Annotated Guide To Basic Reference Books On The Black American Experience

Guy T Westmoreland

This book recalls some of the liveliness of that academic soiree at Oxford. Gathered onto its 600 pages and divided into 23 chapters are the works of over two thousand authors, culled, often painstakingly, from over 500 sources. Entries date from the 1840s and continue through 2005, and cover chapters on emigration and immigration; assimilation; marriage and family; health, aging and counseling; socioeconomic status and professions; citizenship; the political process; and education. The works cited are primarily in English and Arabic, with a relative few in French. As with any reference material, the power is in the organization. The more successful chapters are those in which the entries were sorted into further categories or sub-topics. The American Psychological Association is also not associated with this guide, and they do not have required or recommended guidelines or specifications for creating an annotated bibliography. However, we’ve included it since some students may still find it beneficial to add annotations to bibliography done in this style. The structures and templates on this page were created by the certified, in-house librarians at EasyBib.com.
