leaves her grandmothers home to become a lady-in-waiting at the court of Henry VIII. Charles II is restored to the
English throne, and his court is lively and even scandalous.
Henry VII’s questionable claim to the English throne came about by chance when King Richard II decided to legitimise Henry’s great-grandmother and her siblings. Richard II’s uncle, John of Gaunt was in a long relationship with a lady called Katherine Swynford, despite the fact that he was married to another woman. Together John and Katherine had four children who were, by law, bastards born out of wedlock and not entitled to claim any inheritance or titles from John. Richard was in a constant state of political warfare with his uncles, including John of Gaunt, and feared John’s legitimate son, In all there were seven monarchs among the Stuarts: James I, Charles I, Charles II, James II, William III and Mary II Anne, reigning from 1603 to 1714. James I also introduced English and Irish Protestants into Northern Ireland through the Ulster Plantation scheme and tried to keep England at peace with the rest of Europe. Although he was a clever man, his choice of favourites alienated Parliament and he was not able to solve the country’s financial or political problems. When he died in 1625 the country was badly in debt. Charles I (1625–1649). Charles I came to the throne after his father’s death. He did not share his father’s love of peace and embarked on war with Spain and then with France. In order to fight these wars he needed Parliam
